DETAILED ACTION

Election/Restrictions

1. Restriction to one of the following inventions is required under 35 U.S.C. 121:
 - I. Claims 1-15, drawn to an article of footwear having a midsole and outsole, the midsole joined to the upper and the midsole having a trim line concealed by the outsole, classified in class 36, subclass 25R.
 - II. Claims 16-20, drawn to the method of manufacturing an article of footwear having midsole, upper and forming a flashing, classified in class 264, subclass unknown.

The inventions are distinct, each from the other because of the following reasons:

2. Inventions I and II are related as process of making and product made. The inventions are distinct if either or both of the following can be shown: (1) that the process as claimed can be used to make other and materially different product or (2) that the product as claimed can be made by another and materially different process (MPEP § 806.05(f)). In the instant case the product can be formed by bonding pieces together to form the side walls and surfaces without using a mold or the midsole could be cut from stock material.
3. Because these inventions are distinct for the reasons given above, the search required for Group I is not required for Group II, they have acquired a separate status in the art because of their recognized divergent subject matter, and they have acquired a separate status in the art as shown by their different classification, restriction for examination purposes as indicated is proper.
4. A telephone call was made to Gregory Bondarenko on September 6, 2005 to request an oral election to the above restriction requirement, but did not result in an election being made.

Applicant is advised that the reply to this requirement to be complete must include an election of the invention to be examined even though the requirement be traversed (37 CFR 1.143).

Art Unit: 3728

5. Applicant is reminded that upon the cancellation of claims to a non-elected invention, the inventorship must be amended in compliance with 37 CFR 1.48(b) if one or more of the currently named inventors is no longer an inventor of at least one claim remaining in the application. Any amendment of inventorship must be accompanied by a request under 37 CFR 1.48(b) and by the fee required under 37 CFR 1.17(i).
